

Potential Threat to New NRC Vaccine Facility in Mount Royal in Montreal

Good morning colleagues,

I am forwarding to you some FB posts that were brought to my attention by a Laval City counsellor regarding insightful posts about the new NRC facility in Mount Royal.

There is a group of virilant individuals mostly centred in Laval who are beating the drums against vaccinations and promote and propagate conspiracy theories. I know that in the past Peter Chiotis held anti-vax meetings at his restaurant, Casa Grecque in Laval in my riding, where people have contracted COVID, two of whom died and one was seriously ill and induced in a coma but unrepentant. Now they are suggesting that someone burn the NRC facility.

I have brought this activity to the attention of Premier Legault's office and was told that it will be reported to the SQ but given that the NRC is a Federal institution, I am forwarding to you as I am very alarmed and concerned with the implied threat of what I consider terrorism. I believe that the RCMP should be alerted.

Thank you,
Annie

P.S. – I hope you can see all 8 posts sent to me.

In 2021, 134 Million was spent on useless Covid commercials! You would think maybe instead of blaming the non vaxxers, they should blame themselves for poorly managing the funds! A child in kindergarten understands this! Are you all understanding? A bit?

Tell your lies to the Lornes, the Sophies, the Alexandras, the Marias and the Nicks and many more who have no brain! The rest of the world, wake up and fast so we can get our lives back while they continue to live in their misery!

Continue reporting to CrapTV, bombshell coming soon!!!

Visit the COVID-19 Information Center for vaccine resources.
